

A special delivery for expecting and future parents

32BJ's Maternity Program, offered
through the 32BJ Health Fund

The best
plan for
baby and
you.

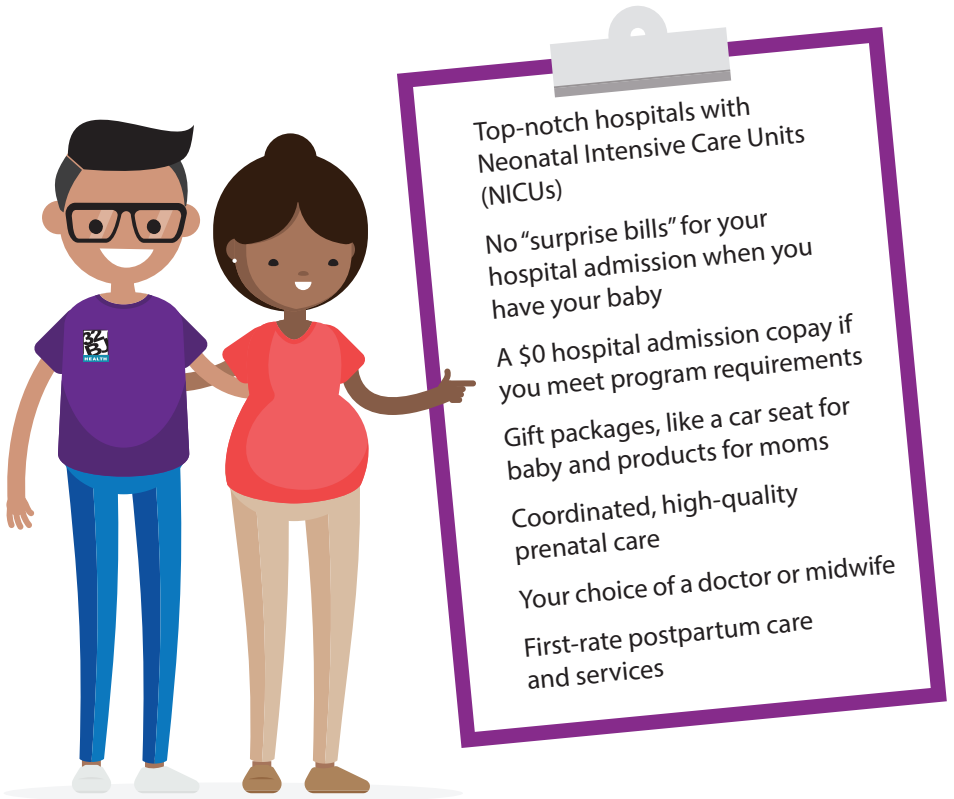

Why your Health Fund is standing up for you.

We care about the quality of your health care.

If there's a baby in your future, you'll want to choose the maternity care that's right for you. That's what the 32BJ Maternity Program delivers.

What does high-quality care mean for you?

Often, we think if we spend more money we'll get more. With the 32BJ Maternity Program working for you, you can pay less and get much more:

Top-notch hospitals with Neonatal Intensive Care Units (NICUs)

No "surprise bills" for your hospital admission when you have your baby

A \$0 hospital admission copay if you meet program requirements

Gift packages, like a car seat for baby and products for moms

Coordinated, high-quality prenatal care

Your choice of a doctor or midwife

First-rate postpartum care and services

To get these benefits, you must enroll and meet the requirements. For details, visit www.32bjmaternity.org or call Health Services at **866-230-3225**.

Your 32BJ Maternity Program hospitals.

We choose only hospitals and providers with high standards of care for this program. They:

- Have at least 1,800 annual deliveries. Those with less had to show they meet other standards and offer extensive newborn care.
- Provide prenatal care through doctors, midwives and other providers who participate in the 32BJ Health Fund's network.
- Offer extensive newborn care, including a Neonatal Intensive Care Unit (NICU).
- Provide postpartum (after childbirth) care and services in the hospital at no cost to members.
- Promise there will be no "surprise bills" from doctors who aren't in our network but provide care for you or your covered baby.
- Prove they're meeting quality standards by reporting results, such as – number of births, deliveries with complications, episiotomy rates, and babies requiring intensive care, to the 32BJ Health Fund.
- Perform C-sections only as needed and meet the standards set by industry experts.
